(*outvoted*) Shattered Relic

Objective

The player’s party discovers fragments of a powerful relic belonging to the Magic Faction in one of the forest clearings.

Choices and Consequences

- **Rebuild the Relic:** The player can gather all the pieces and return them to the Magic Faction. This enhances their power in the world.
- **Use the Relic’s Power/don´t return it:** ~~(If the player keeps the relic for their party, they gain temporary boosts in battles.)~~ However, this strains their relationship with the Magic Faction, potentially leading to aggressive encounters with faction members on future paths.

Chain Effect

If rebuilt and returned, the relic’s power might create new magic-based encounters or barriers along certain paths, making future runs more challenging for players less attuned to magic.
